ENVIRONMENTAL CHARTER

At Numeryx, we are firmly committed to environmental protection and sustainability.

As a committed company, we fully recognise our responsibility to put in place concrete measures to minimise our impact on the environment and contribute to building a sustainable future.

This environmental charter sets out our guiding principles and commitments to promote sustainability at every level of our organisation.

COMMITMENT TO SUSTAINABILITY

COMMITMENT TO SUSTAINABILITY

- We are committed to integrating the principles of sustainable development into all of our activities and to promoting a culture of sustainability among our employees.
- We constantly seek ways to improve our environmental performance and reduce our carbon footprint.

RESOURCE CONSERVATION

- We strive to minimise our consumption of energy, water and raw materials, by implementing energy efficiency measures and responsible resource management.
- We encourage the recycling and reuse of materials as far as possible, ensuring that our production and waste management processes are environmentally friendly.

GHG EMISSIONS REDUCTION

- We are committed to reducing our greenhouse gas emissions by favouring the use of renewable energy sources where possible, improving the energy efficiency of our facilities and optimising our logistics and travel activities.
- We support carbon offsetting initiatives and work to implement low-carbon business practices.

BIODIVERSITY PRESERVATION

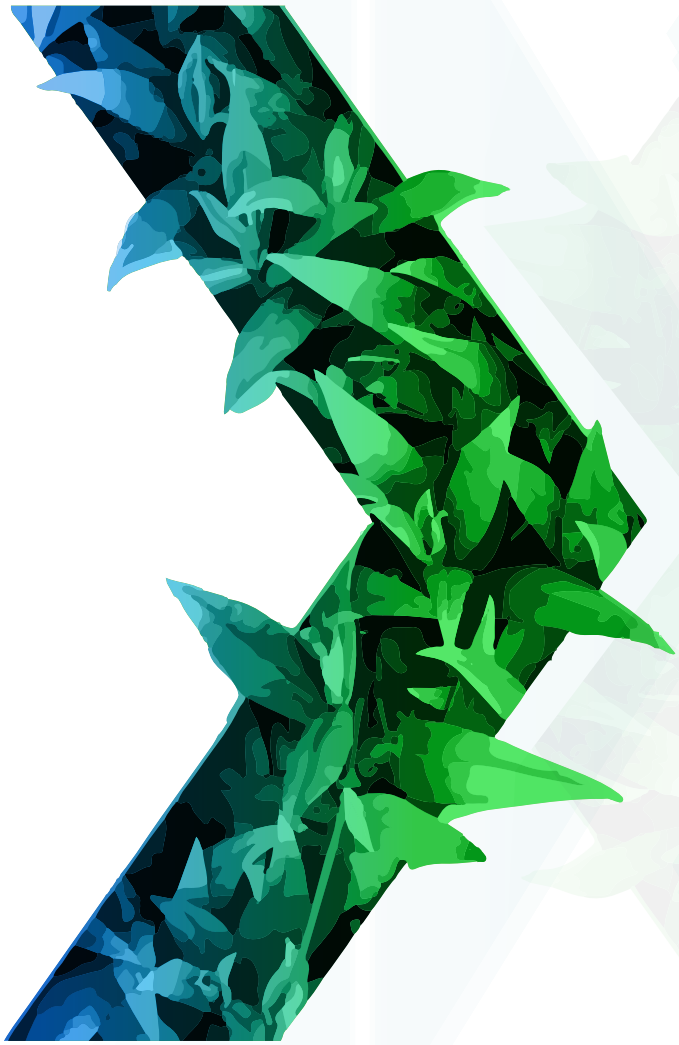

- We respect local ecosystems and strive to minimise our impact on biodiversity by adopting responsible environmental management practices.
- We are committed to complying with the environmental laws and regulations in force, and to supporting biodiversity conservation and restoration initiatives.

AWARENESS AND EDUCATION

- We are committed to integrating the principles of sustainable development into all of our activities and to promoting a culture of sustainability among our employees.
- We constantly seek ways to improve our environmental performance and reduce our carbon footprint.

CONTINUOUS IMPROVEMENT

- We regularly assess our environmental practices and set ambitious targets to continuously improve our environmental performance.
- We encourage research and innovation in the field of clean technologies and support the development of sustainable solutions.

CONCLUSION

By adopting this Environmental Charter, we commit to being responsible actors in preserving our environment for present and future generations.

We will work tirelessly to integrate these principles into all of our activities and to inspire others to join us in our quest for a sustainable future.
